

South Delta **IMPROVEMENTS PROGRAM**

Water Supply Subcommittee Update

September 14, 2005

South Delta Improvement Program (SDIP) Staged Decision and Implementation Process

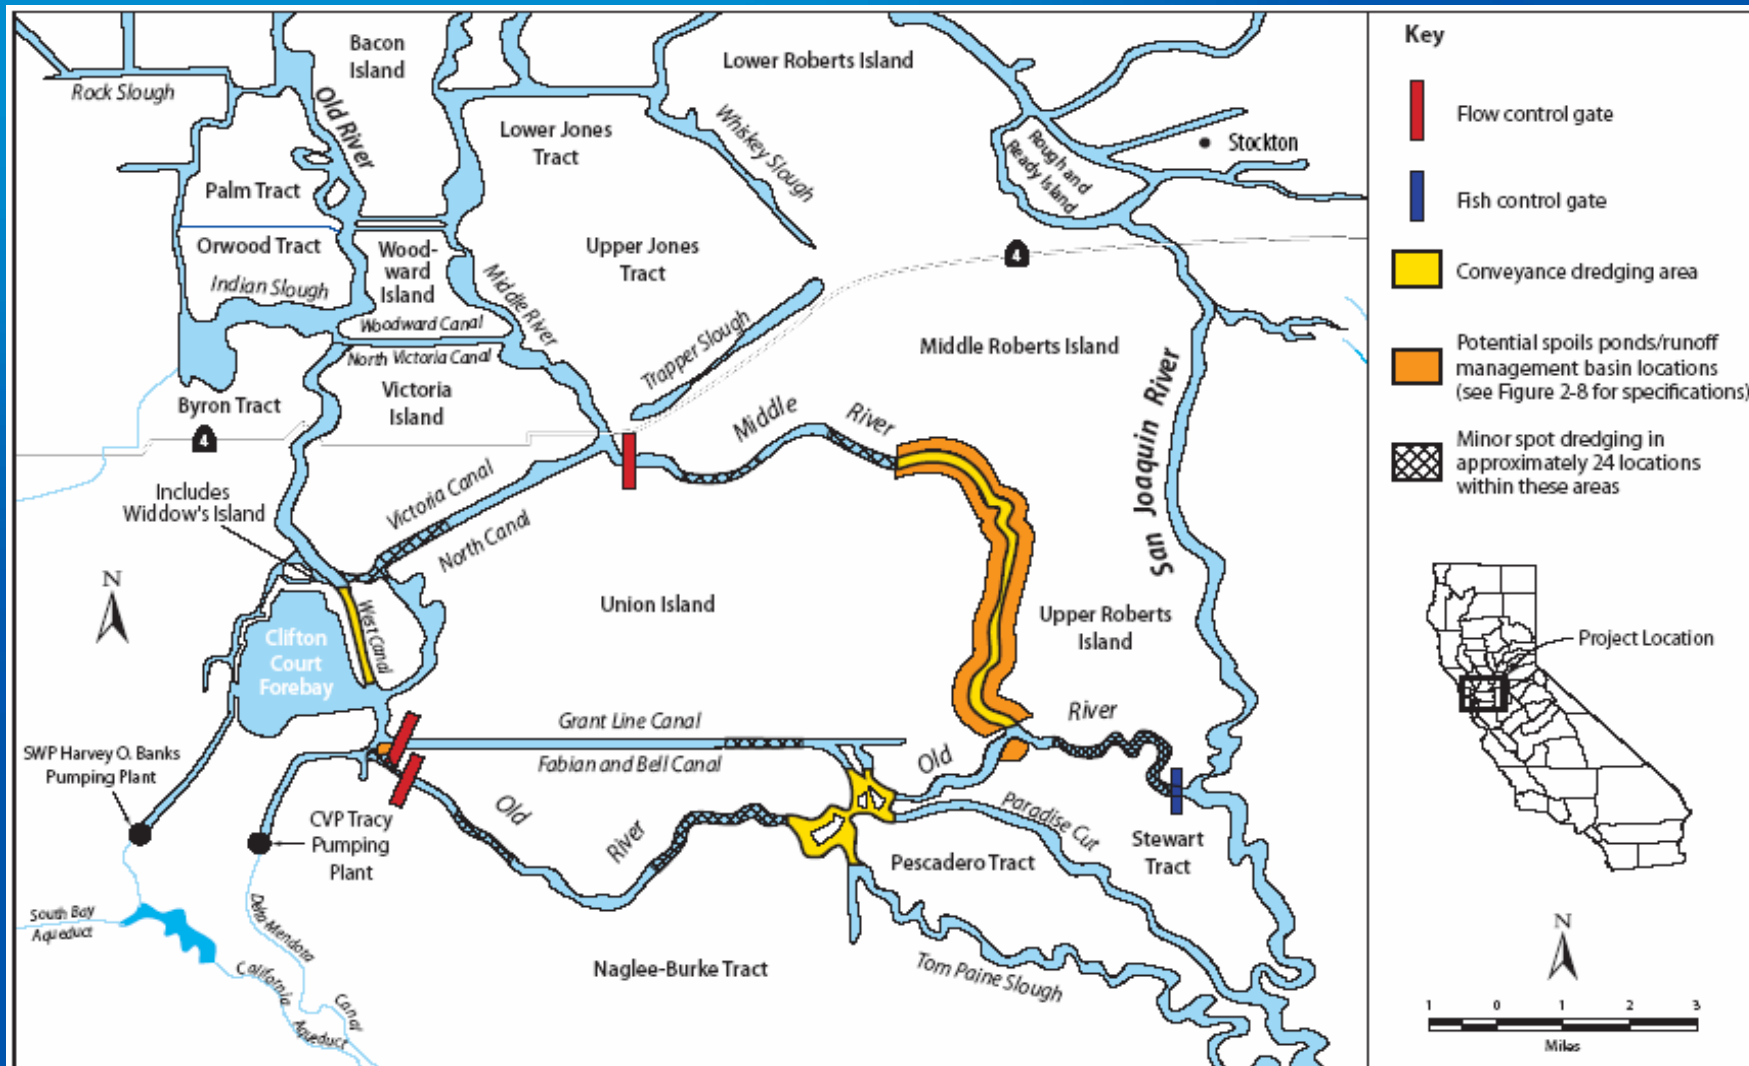

* Note: It is possible that the No Action Alternative (existing export operation rules and temporary barriers) would be selected in Stage 1. If this occurs, there would be no construction phase and continuing with a second stage that addresses both the Physical/Structural Component and the Operational Component would be considered.

Alternatives Analyzed

	Existing 6,680 cfs (D-1641)	Operational Scenario A	Operational Scenario B	Operational Scenario C
Temporary Barriers	No Action Alternative			
Four Gates (preferred)	Stage 1	Alternative 2A (Stage 2)		
Four Gates (preferred)	Stage 1		Alternative 2B (Stage 2)	
Four Gates (preferred)	Stage 1			Alternative 2C (Stage 2)
Three Gates	Stage 1		Alternative 3B	
One Gate	Stage 1		Alternative 4B	

Preferred Gate Configuration— 4 Gates (Alternatives 2A, 2B, 2C)

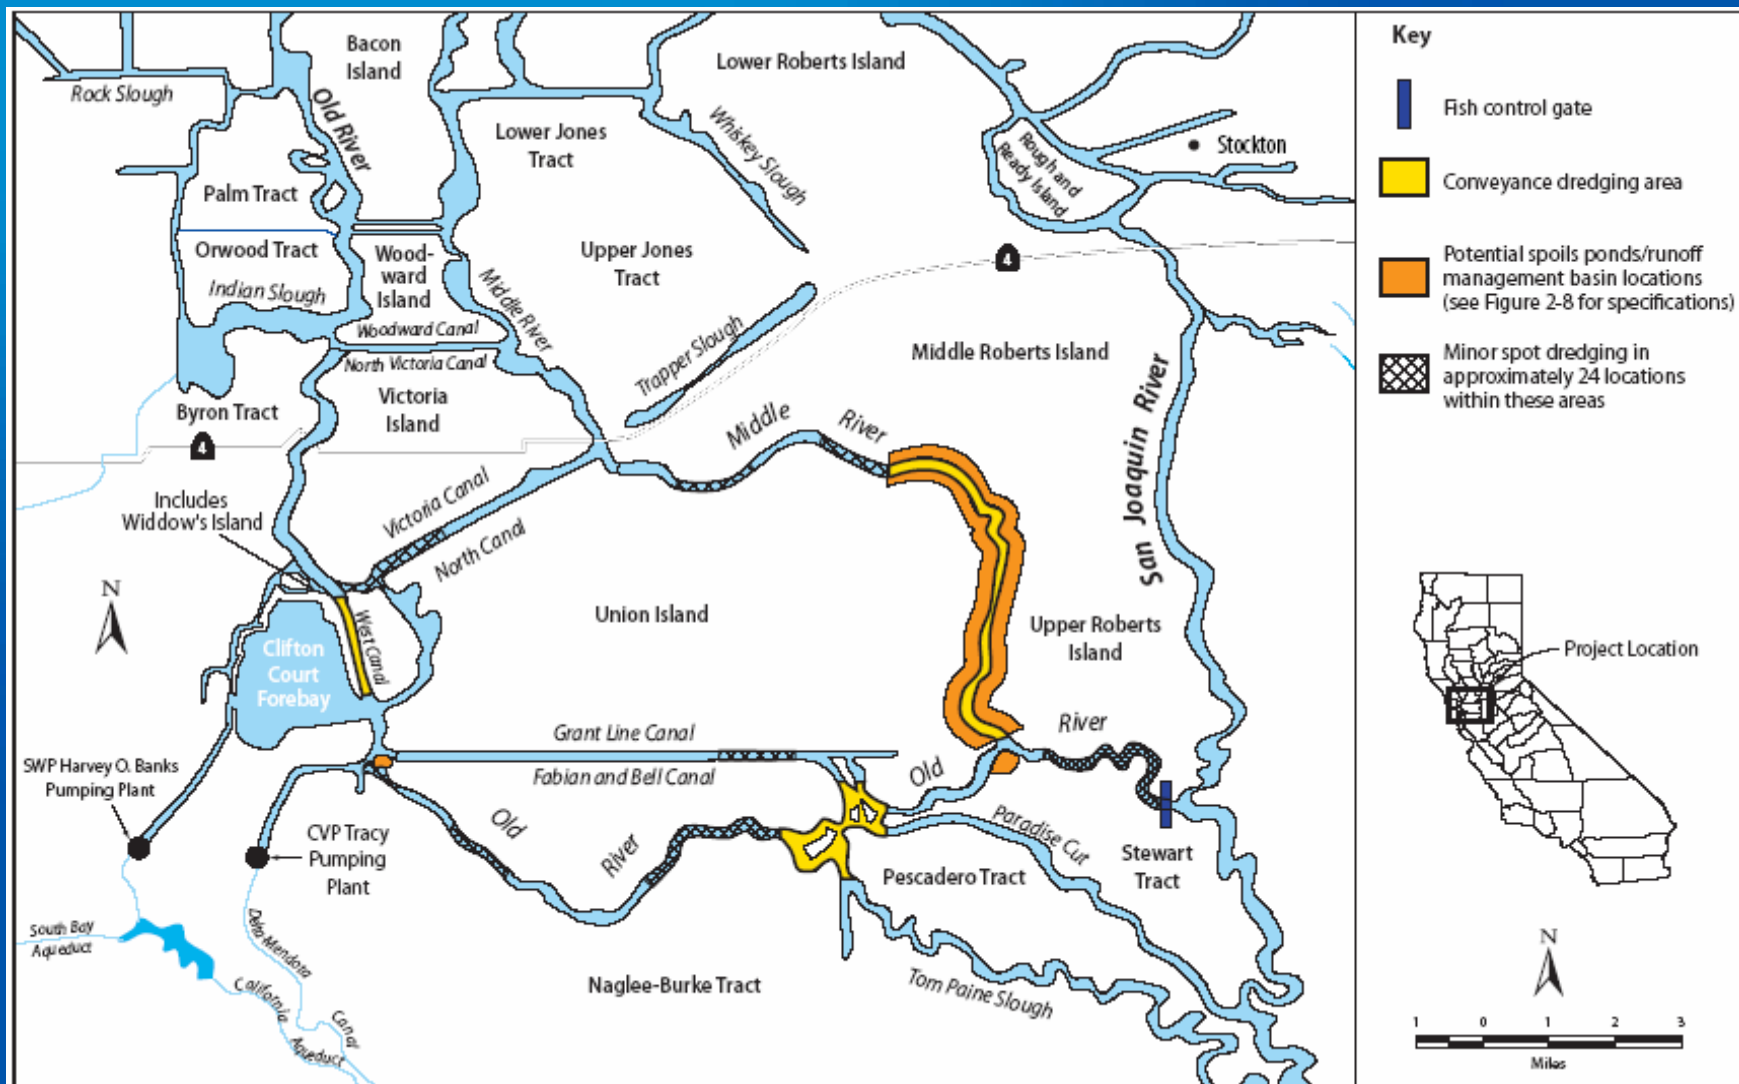

South Delta
IMPROVEMENTS PROGRAM

3 Gates Configuration (Alternative 3B)

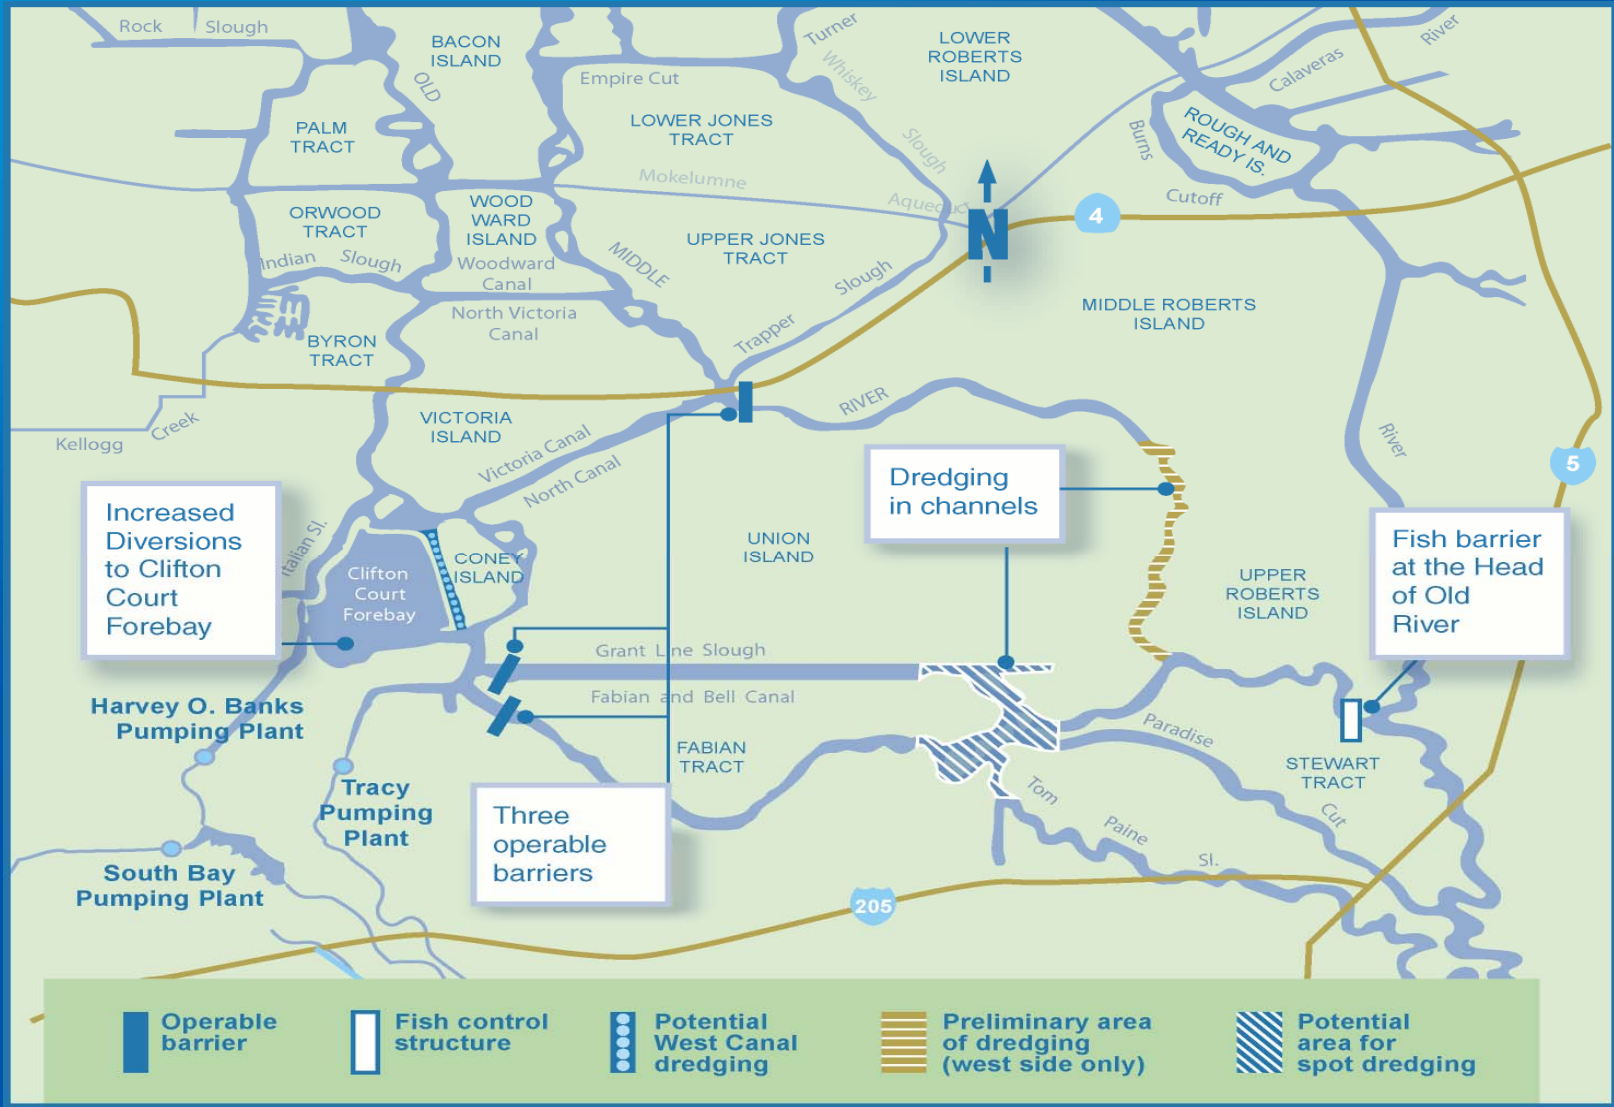

1 Gate Configuration (Alternative 4B)

Water Levels

South Delta
IMPROVEMENTS PROGRAM

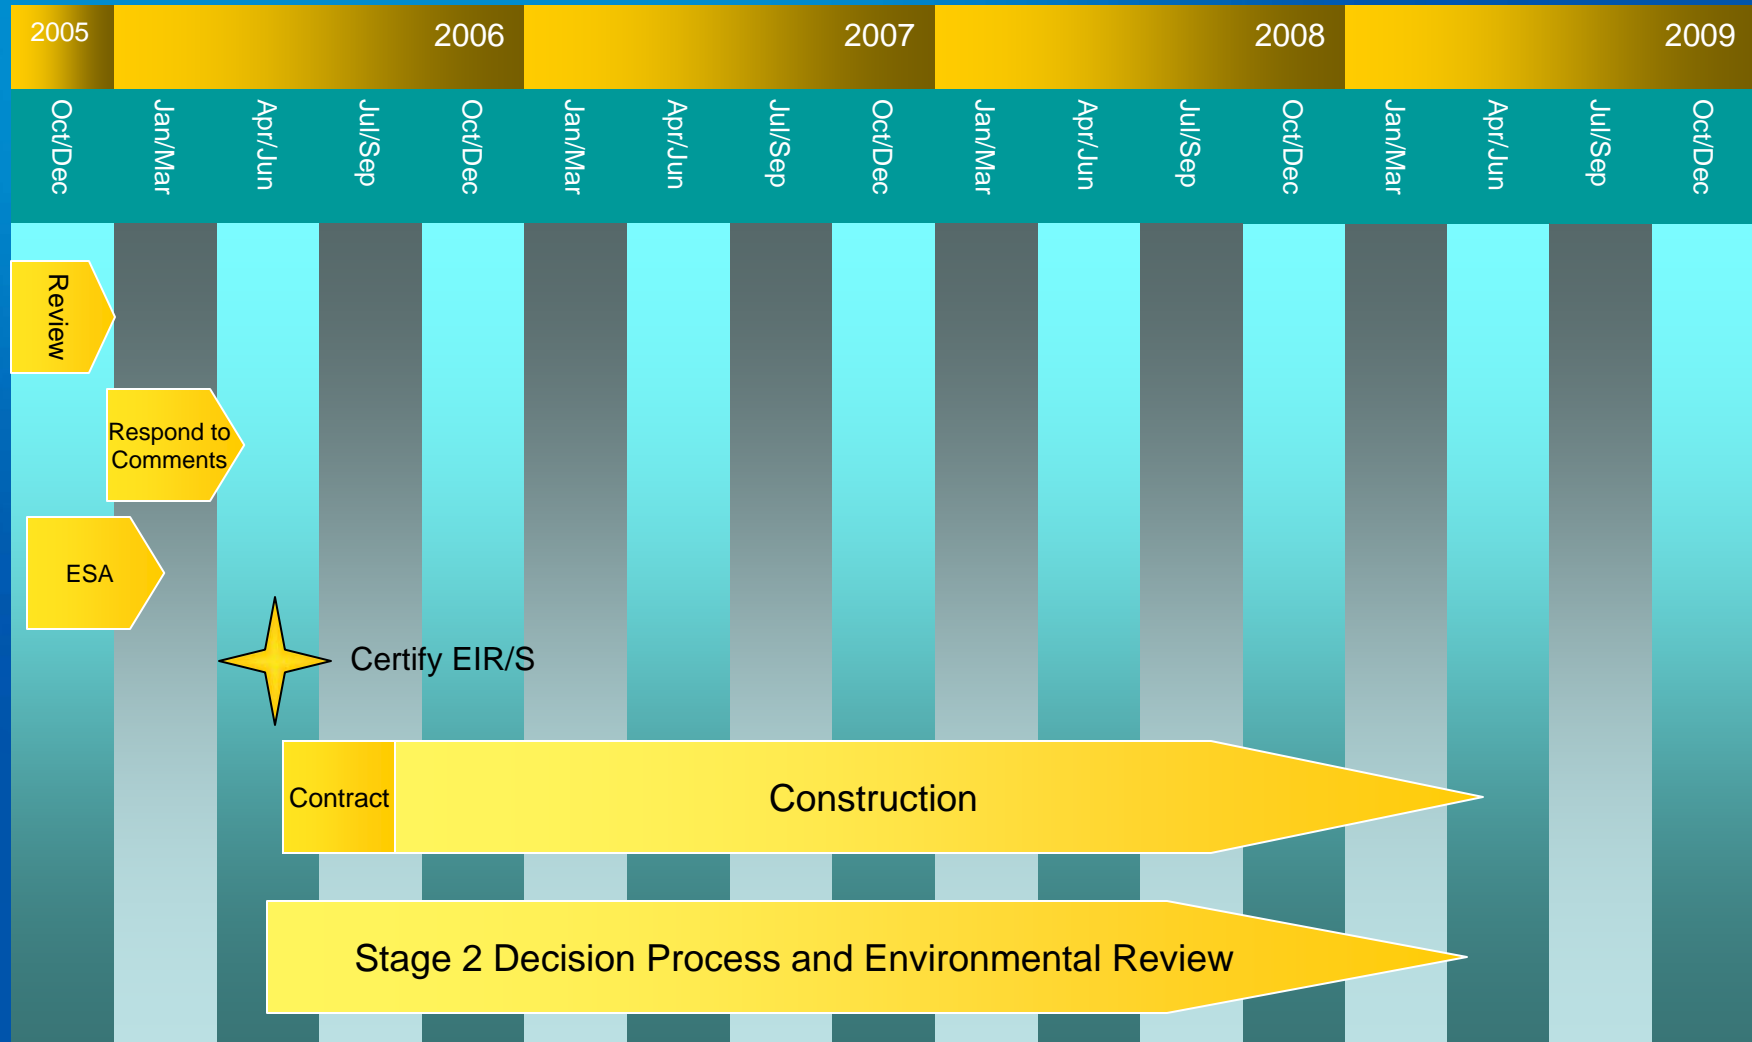

Issues

- CCWD's Water Quality
- SDWA's concerns – Dredging, WQ both interior and San Joaquin River
- Stockton Deep Water Ship Channel DO
